PORTE AND, SATURDAY, DEC. 26, 1937. OLI OCRATIC DISAGREMENT.

Louisdiately after the election of Mr. Cleveland to be presidency. THE (BEGORIAN said:
We are to have a democratic niministration;
but republican jointy has been evought during
a quarte of a century so fully into the whole able departure from that policy will be imposanti begarthe from the policy with be important this has proven true. A good many democratis have taken the place of republicans in the public service, and this is about the only change. The objections made by this paper to the sleet on of a democratic president was not Lessif on any foolish assumption that "a democrain a initialization would rum the country."

-though this was heard in many quaders—but chiefly in the opinion that the Jourse of the democratic party during many sears had been so unicorthy and so partered a company of the the test propriet is that the party did not deserve this test propriet is profit the democratic party. It mesoty voted, he a very parrow p prality, so give that easty a

trist: 1 | Row Having power, t is state that the party is in a title of perplexity as to leave to use it. Questions of important are booming up before it, updaintaids at cargot agree. The course of the title of the course of t laithe pe les de chibily on the composition legitiants see as curry on the component of blacks aphthes in the house. Irreposition is optimal to be from the broad to be freely in the rought to control the speaker is a first of the principal committees. It is not a tracing to to personal pre-aminence, but a confice over measures and policies which differ the principal to the property of the confice over the surrest and policies which differ the property of the confice over the surrest and the confice over the confi too which is admit of accommodation. Shall the summittee of ways are means full under control of the protectionists, or, the low tariff men? Shall the committees of coinage and of banking and currency be dominated by these he alcount the suggestions of the problem and of the secretary of the treasury as to empendion of reflects of a liver and discontinuate of legal tender notes, or by those who streat could up-pose these at greations and are resolved that they that not prevail? The telegraphic reports say that juestions like these are giving the ad-mile strainton to little concern. While coth parties are divided to so me extabl

or trees questions, it is clear that the manning taking it more nearly in accord with the mass of regible can than with the mass of temporals upon than. It is even suggested that the administration will be obliged to look to republimin straines will be obliged to look to republi-ce in for assistance, if not for defense upon its moretize and immedial policy. The speech of Sension Book of Kentacky, on the silver ques-tion delivered just before the recess for the hol-idays was a studied and powerful arrangement of therewes, of the administration. It was in direct topposit in to the president's message, on all pairs and parts of this subject. More see her of the same kind minuble lift are to come. Lis philip intimated that the surges-Intion, will divid the party. Fut we think it doubtlish who ber they will be pushed so far as that, I the hip so, be course, that they will not prevail. The administration can decrey the party with it on mess questions. That is tas y, of these parections the administration does not of republicant are still perclitted to commin in

The republicans, as the manner of an opposi-The republicans, as the manner of an opposi-tion s, with he pussive spectators of this strugger in the bridy of the administration, or will take such part in it from time to time as will tend in their opinion to the further on barrasement of their political opposities. It probably never will become possible to identify an opposition that its profit of another, in pursuance of duty, is to, belp the dominant party out of its lifficulties, in such way as to render hest service to the coun-ity.

H. W A LILLY CACKLE,

The logue journal "parallels" certain matter from Tars Oraconian relating to Capt, Powell's report with like matter that had appeared in a Tacoma priper. The facts are these: A Washington news gatherer named Earle, who has access to official reports in access to of their general publication, obtained an advance copy of Capt Powell's report, and made an abstract labed here whenever the matter should be made public at Washington. The matter was held n the office, and printed upon receipt of notice inditte report had been given to the nublic there. It seems that a Tacoma paper to i powepaper is too, would have received a copp, at A The Ormonian and other papers. The meter was geneine in all respects. It cames to The Checonian from its original source, at was duly paid for. A few days ago ed the Grant-Porter correspon It had been in our hands on days, awaiting notice day New York that it is gut be given to pewspirem that are newspapers this is part of of anic radized a satem. But as the bogus four-nails the newspaper and has no connection with a cares of news, of course it knows nothing about the methods and usages of assi-tiated learned an

We rould easily parallel a large amount of matter's ich the bogon paper curing the gust week has printed on the day after it had ap-peared in THE CARGON (AM, ruising the dates to make in matter appear fresh. Yesterday, de is, set goming a with it, the boxed paper bnd no news except what it took from the Exering Telegram, and as an excise it printed a line at the head of its columns saying that the failure was due to "derriperser; of the wires." But THE URECO-RIARS in ort can e through and was published as usual which is sufficient proof that the wires were not to "deranged" as to cut off the transmission of news. The Evening Telegram, from which is bogus formal habitually clips such genu is the grip to never as it commiss, didn't come of trestately; so we may expect the statewent in the begue journal this morning that the wired die :till "deranged."

PENOLOGICAL SCIENCE.

A pumpiled downsinming a report of the pro-ceeding of the national prison congress, held at Detract not long stock, has been published. The subset is one that will not attract, many readens though it is probable that the pampilet will be examined with one by students of penology. In every assemblage of this kind there are many theorists and sentimentalists, and some who, in the stang of the time, get the designated of "crarks;" yet in this meeting at Detroit meny questions were intelligently dis-cussed, and not a few wise and sensible propositions were advanced. In regard to prison discipline, the usual difference of opinion was manifest. It is known that one school of writers and to kers on the subject argue that penalties should be adjudged and administered for the so a purpose of reforming the criminals for whose offeness they are imposed. Other theories that the sole object of restricting and pullishing reinfining sis the welfare and safe; of society. Olliers, still, are of opinion that both outgots are believed in each penalty

judicat i diluted for crime.

All the opinions of professed homeultarians and representatives of social science of the subject of squishment for crime are too much important to the subject of squishment for crime are too much important to the subject of squishment for crime are too much important to the subject of squishment for crime are too much important to the subject of squishment for crime are too much important to the subject of squishment for crime. buck with mere centiment. The discipline of convincing in the prison is a very practical quesfrom The may be more and exceptional cases in worth (from stances or recently have brought a rear of fine sensibilities and not deprate in his impulses into a cateer of crime; but the great majority of criminals are intended. tional y so, especially in the crimes neually punished with some terms nonal, so, depends in the case of imprisonment. The humbar, the larger, the back-robber, the swind of the third the macal who defrauds the helics on, without it his die beraie intent; he have produce with the macal who defrauds the selice too, without it his die beraie intent; he have produce without an act assessment has ful owed:

his free choice as the lift. Some of these crimes thated to cover other crimes, cation and embezziement. But me : generation: and ; jembeszlement ; Bat and, in all these crimes which are simply crimes against property; the driminal is wilfully, defiberately and off premediated design an affender against he have of the land. For each criminals—who constitute the majority of prion instates—his reform seems possible. Even if it is injused rescality, which caused them to stead, force and ambeszle, could be Even if it of inition reasoning, which caused them to isteal, ferre and embezzle, could be eracleated, the corn.unrity would not believe in their reform, and so pradent man would afterwayd intreast to them the custody of his poperty or the care of his interests. Such men have shut the gates of mercy on their setup. There does not seem to be any way of return for them to the pursuit of an honest life. They have forfeited all confidence. Netody will trust them, and no only can be blauned for refusing to trust hem. Bars and exceptions cases may occur in which Rare and exceptions cases may occur in which anth then entry it careers o recutings and henry, but they are no outcomment as to be plus-non-enal, and do not sare as an example or precedent on which any hope of exponention can be haved that other off anders of the is and class will prove exceptions to the experience of

markind.

(in the whole, the solittle is to be expected from the reform of rimina s that the interests of such by may as discussing question of judicial yunishment and prison discipline.
If the should be understood from the start, less jume, would be lost in use-less experiments as wild impracticabilities.

PEOPOSED CH NGES IN A FAULTY There will be an ther attempt in congress

this winter to remadel the Chinese restriction law, and it is to be roper that whatever may be done will be better; onsidered than the measure of last year. The bay as it now stands is notori-ously insufficient. We cannot believe the extrangent charge that, through one toop-hole or ancher, "hordes and bordes" of Chinese are permitted to enter the country; but unquestionpermitted to entert e country; but unquestionati, there have been some entraides as a result of the faulty law, p-subly one thousand in the course of the year. Of course the law shound he made effective at the ought to be no objection in courses to revising it. The san Francisco juapers furnish a sizement of the act which the Cal formla delegated will apport in courses and which should than will apport in courses and which should that will apport in courses one which should that will no doubt be supported by the sensations. The language of the present law is not vollowed closely as to the resident of Chineme and the issuance of carticipation. present law is not followed closely as to the reg stry of Chiname rand the issuance of certifi-cates. The law requires that the collector, or his deputy shall it spect outgoing Chinese out-the vessel in which they sai, immediately presious to departure and issue their return certifidates to are dule and it has been the practice to allow registration in advance, each person regalter registration handwares, each person registering receiving a white tag which calls for a setum continuous at the gang-plank of the outgoing this substantially. It also provides the plant substantially. It also provides the on the certificate along shall be prioted in things characters a notice that any other persons than intestegally cultited to thom, with a fit ble to present tion and impresonment. A provision is made directing that the photograph of the Chinaman to whem a certificate is issued be attached thereto by the cust in house officers, so as to affor, an add ticual heams of identification.

The effecting the act the courte have beaucompelled in several inclumes to direct certain conduct not laid down in the law. Without defi-Chinamen deporter after they were remanded, who never the vessel on which they arrived went away before final action was taken in regard to them. The vessel which brought them here could not be detained for a rooth or two to await the determination of these habeas corper petitions. Still the act prescribed the vessel 1 y which they came at the one by which they were while they came at the one by which they were
to be returned. The judges therefore considered there was no actua warrant of
law to compel Chinamen to go by any other
westel, and were learful that an append from
their orders of deportation by other scamers
might at any time be taken. Were it sustailed, act lega ezes the action of the courts in this par-

suggested by those who have been engaged in the attempt to tatorce it. Experience has shown the faul a off the system and the present effort is simply as alternat to correct hem. There is no proposition to change the law in its spirit or intent.

A BROCKURE ON SILVER. Ez-Senator Stewart, of Novada, has published a thick namphiet on ' The Bondholders Corlarge smooth of very unportant matter, awaitlog swords that will permit publication. With
the declaration that "The allver question is a the declaration that "The aliver question is a contest between European annihilders and the laborers of the world." To support this statement he says that "the national debts of the would egyregue over \$25,000,00,000, all of which is substantially controlled by a small European andicate." All a her bonded obligathe same and the same and the same and the same and the same at \$75,000,000. The bonded debt he says at 11 c time it was contracted, was an agreement on the part of the debt. or to par either in 2014 or either he says and the says at 11 c time it was contracted, was an agreement on the part of the debt. or to par either in 2014 or either, at his own option: "If silver is to be will drawn from the money of the world spiking the character of the world spiking the world spiking the character of the world spiking the character of the world spiking the character of the world spiking the world spiking the worl it cannot be delivered by the delbor in discharge of its obligation the contract will be changely and the debtor in irred." Again! "The amount of silver poin in the worst when the wac on sliver commenced is supposed to have been about equal to the amount of gold color. If the mines of either metal are more productive than usual, the debter is benefited, and the creditor has no reason to complain, 'or that contingency one ed into the contract.' The objector to silver is "an effort to contract the coin of the world for the forests of the bondholders," and "the power of \$75.090,000 bas substitized the genius of Europe and the ir stropolitan press of America to inverti reasons why the debtor ought to pay two dollars when he has contracted to pay two one." Mr. Stewart attacks the president's message, and Stowart extracts two presumers message, and snys its agreets "induction in a name of pairiotiem." Since the author of this pampilet is a Nevada man, heers mention of the source of the argument will be considered in many quanters a sufficient anywer to the argument it elf. Nevertheless, the argument is one that has mary advocates and many believers. Mr. Stewart presents it with great amplitude of illus-

fight upon the rules of the house. The New York World's Washington correspondent says one volce will cenainly beneeded for this passage of a compromise measure. The republicans nearly to a man will regist any tariff raduction, while they have been only too happy to help on the distribution of the appropriation bills, bel eving such distribution will result in extravagouce and increased expenditure."

southern stries for the present year agree lubon a total of 1,520,000 to 5,539,000 bales. This is a great erop, though the figures are 15 to 20 per

A weez ago t was announced that Mr. Blaine was within fifty pages of the end of his "Twen-ty Years in Congress."

Telegraphic report is light this morning

The Indiana republicant have already be run the ratingements for mix personal republicant the rating entitle for mix personal republicant the hundred prominent numbers of the parts, per secuting all sections of the state, and tag week at Indianapolis with the gate certail or mittee, to consider the situation and deside rpen plans of work. An Incianapolis corre-

was decided to reorganize in jarry and awaken popular interest by holding conventions at the county seal of every county on Jamany 30. Except efforts will be made to give the people full and satisfactory representation in the county state the properties and in the new-conmittees to be appointed, it has been supposed generally that the propert was slight of the Indians republicans carrying the legislature and retaining Sector Hardines seal in the senate. The democratic statement was a democratic majority a roots sure?

If they consider the legislature districts so a to make a democratic majority a roots sure?

If they consider the senate is the democratic statement of the properties of the properties of the senate of the

A PARTY BULT. N. W. DER.

Fellow-democrate: As the emmortal Shakos-peace puts it, "hope deferred makes a ir in sick." That's what's it e matter with 100 sick." That's what's it is insister with 1 or. When the final returns came in from New York a little more than a year ago this enthusias, cheat heat high with patrictient and thoughts of office. Acting upon the first wild impulse of rictory, I pawned my overcoat for \$5 and or arbituted a good portion there of to a bond of funi. The remainder west for ramp a bink of good red liquor. Alast time held rought no full timent of those brilliant aspirations, and consistent in the still borney of right before a tim is in the still hours of night when silence a one so the son dours of night whole siends as broading over earth, and Jeffersontan dein stray over her crue wrongs, I sell like highly the appointing power with my studie pec. I see I lisent the following outil 12 later x President described. ident Cleveland, which for obsidue reasons to been withheld from the prees:

then withheld from the press:

To his Excellence, Grove Caretand, Prefedency the Content States I like and sunt of theirs when a many who has been it his and sunt of theirs when a many who has been it his and sunt of theirs when a many who has been it has not sunt or great army that curried him to victory. Fynness than twenty years I have he ed in the decisionism vineyout, and when the first of defeat intend my expectations of official fruit I havely endured the jeers of the victors at spit on my hunds for thinker. How they are the principles, the principles hat sound the pury trageller and made your election bossis de. But what has been my reward? Far democrativities that he may be fear only they have the him years of the constitution of the cours fruit, yet you persist in turning a deaf extended the properties of the constitution of the magnetic many made into the victors and elections fruit, yet you persist in turning a deaf extended the constitution of the magnetic many in fear, up in the golden grapes of success. Let this fair and homomorphic Tryguilty considered will answer, "No?"

I feel that the administration has played me false. When I left Washington several months ago I was led to believe that my appointment would follow in a few weeks at the furthest, but such was not the case. You have rifled with the hopes of a man who is slow to anger, but who, once started, it in ofensive partisan of the deepest dye.

Frankly, Mr. Claveland, I am whetting a knife as long as your recent message, and If a reflice it and my norty, but I don't allow any mixed administration to kamper with any separations. Yours for office, W Yesturduy I received the following reply:

Washington, Dec. 17. PORTLAND, I ec. 10, 1585, t

Testuring I received the following reply:

Mr. N. W. Deo, Portland (L.: Drut Sir-Yours is not the first cont plaint from the Pacific coast, but I have refrained hitherth from replying to personal appeals from Coston. You people are inconsistent. The definiently to Washington territory, when the lossing a reply septative in congress, instead of crusting themselves elected a young of orthingter from Indian. The legislature of Oragon, instead of electings as United States senator a resident of the state, honored another security in the securi

the state, honored another carret-bagger from the east. Frankly, in: Hee, I do not feet called upon to trust a people who are struct of trust themselves.

4R(IVER CLEVELAND) themselves, URIVER OF EVELAND.

At first there would seem some reason nother reply, but my penetrating mind has detected its sognistry. We are not afraid to trust ourselves; we are only afraid to trust each other. For Mr. Cleveland to intinate that any democrat to Oregon would be atract to trust hi use, f with office is rithenlous.

It sounds very fine for Mr. Clev dand to ta'k It counts very fine for Mr. Cleviand to lake about o'll service reform, now it a her has conailed the biggest office is the country but I would like to remind him that he neglected to call for an examination when he were a cardification. It too, am in favoriof c'hi service reform, when I get an office.

Féllow-democrats, I am agaigst the administration henceforth. I feel half canct encounter mother hard winter with moching to sustain.

for another hard winter with moching to country me but the slim hope of obtaining foderal officers. So I am going to work at my rule, austaine and encouraged by the prospect of father raveline. In the language of Am row Jackson:

There'll be trouble in the system syrand sy.
Tourean see the anger it stime, or my d.c.,
I'm a bad one—hear no too!
I've a raxed in my boot;
and to use it in the future I shall try.

I'm a leader of the sta wards from this day, By ambition is my enemies to flay; I will meet you at the folls, And I'll rake you o'er the coals. You will see me in the thickest o' the fray.

AN EXPLINATION.

Why "fuck" has Lost its I distinction for Civre Coronal's New York Letter.

There is a strong suspiction intrahouly it is Prock and Prock's proprieter do not lovel Prosecute the off of March ast. It will be remembered that the cartoons in Prock glor field the present incumbent of the White house week in and week out. It was ready to lamboon, both will pen and penell, Mr. Blaine, his supporters anywhere else had any opinions adverse to Mc Cleviland. The demon for the si change has leaked out, but has not yet been published Mr. Sepler has a hrother-in-law Mr. Schumna II. hink, is his name—who occupies a pas fine as book-keeper with the Corbin backing couply. Mr. Schumna wanted a tierman consultation in the proprietor of Puck wrote a pressual letter to the president, pointing full the services he had rendered [in detaining Eksico] and teclaring that if this favor outlife a decorded him by the administration he would sisk for a thing more. The naw we not a tick for a hing more. The naw were a particular to the new doctrine elective effices were the only rewards of party sorvices and backou at the schulman should each to lie erve an election at the hance of his courtymen, for the post of course, the should not have. Hence the full in Puck's thermometer. "fuck" has Lost its I dimination for Cleve

Around the earth, in every land,
By every atream that I'm now use of,
In every town, they understand
How feeth may best be taken care of.
Prom Jercey finite to Bliringha a mourt.
They sing the praise of SO ODONE.

BI BEAD NEWS. Interesting Boto: of Posslopments in the Fine

ORONDA, Doug as Co., W. T., Dec. 15. The arream of emigration to the western part of the B g Bend has been steady if to December and it is expected to reach darge, proportions in and it is expected to reach large, proportions the spring. It was as it gular fact that as far as heard from every one of the new settlers around Okadagan, Indigar postofite, and Oronde Landing came either from Variana, K titas, or western Washington. In view of this Mr. Birch, of

these facts have inspired the republicans with a determination to put their best doct forward a pass.

Unofficial and deformal conditioness of separative party men form one of the prontain as of republican management in It diana. The case of the publican management in It diana. il is plan.

Asepa M. Snew, late city engineer of Sentite, described a survey of suffair in ids, on the east side of the Columbia river, at the condon Landing on lete. 8th He found nine and a half feet of a fail in the last main channel in 1109 yards—six feet of this fall being in the last 400 yards—six feet of this fall being in the last 400 yards—six feet of this fall being in the last 400 yards—six feet of this fall being in the last 400 yards—six feet of this fall being in the last 400 yards—and the plant of the last 400 yards and the fall is the last 400 yards and 100 yar cending the west main channel as the fall is note evenly graded for a kinger distance—about a grile. He pronounces it faculties to utilize the fall is fall for motor purposes it a consociable outlay. Several kinds of power could be created therefrom The survey was made in comprime with the water of Dr. J. B. Smith of that place. Mr. Snow has settled arong usinc opened a mail office at Entgory were heattends to surveying and the location of land for contrasts.

WINTER WICKEDNESS. Talmage Belivers a Discourse upon the Tempgat one of the Hollian Season.

Wivid l'ictive of Exten us the Prince of Good

Eystic XXX

Bin OCLE, N. Y. Dec. 20 — for practicing and fourly fill fitteen citive of he Union, the Brooffer He occupied his pulper to-day, when Brooffer there he was crowded, many being marges see nor was, "The Winter, and How to Effect R?" His text was taken from Matthew xive, 22 "Pray se that your flag it he section?"

The oblitants of the cess armony the section of the cess armony to t

the winter? Pollowing is the sermon:
The obliticals of the old class were between the hitches would have to the for their lives, such light would be painful even in the first would be painful even in the first would be painful weather; therefore they were to to-pray that their fligh be not in the winter. There is some big in the winter season that not only the season with the collection of the pray that their fligh be not in the winter. There is some big in the winter season that not only the season with the prayer of the prayer teets ur parsical endurance, b t especially in the c y if co our moral character. It is the winter near is that rule more is and forever mans of our young men. We set in the house on a what camping and hear the ctorm raging. on the cuttle, and imagine the helpless crafts further. In he cost but, if our ears were only grodest count on a winter night, rear the claim of a hundred mo, a shipwrotes. Many who tame ast Selectuber to town by the stolless have been beated. It only takes one we not torning a roun man. When the life, what evenings have done many of course, the many will improve the nulls forward years are well in the life, and the country only many if your posterior and atmost which is an energy of the processing and atmost the still a will show you befor I get through that at his seems of the year remplations are especially amazing, and his counsel is look out how, our stend your winter nights! I remark, that there is no seems of the year in which TICKUS ALLUREMEN :

tines at these is no sesson of the year in which tines at active 1 in warm-weather though the property of the The wast of desiration has done the work of sun. Stand back, young man. Take n the first step in the passific states to denote these the firms of strong druk ever scock your tonger. In may tamper with these things and settle but your influence of the wrong chit was not inside a service for the good of others. The may tamper with these things and settle but your influence of the wrong chit was not inside a service for the good of others. The may condition the good of others. The may condition there was a way of estable in one of the life boats. He said "No, I will go down with the passengers." All the world scin overlight further him. Oan you not denly suprain larguistent induspraies for the good of the state. Be not allered by the fact that you trink on y the moderate beverages. TOU PARE OVER ALE, nestres to drick belarge amount of it to

INCIDENTS OF THE BLOCKAL

The Capture of Several British Runus:

off Wilmington, N. O

Verious Exciting one Interesting Scores Canta

of the Noted Belle Boyd and how her Heart was Won by a Pederal.

(Written for the Sur day Oroganizad)

The incidents of the Llockade from 1861

The incidents of the Liockide from 1861 of Reis were many and various. The writer commanded the Linted States steamer Connection the blockade off Wilmington, N. C., for four months and during that period capture and sent in four seamer—Jimo, Scotia, Ministration of the cargoes adjuty ged worth 50 53,33. The Connecticut ran ashers and destroyed for other blockade rubners—Phantom, Herrillers and Diamond

the Collectade runners — Phantom, Horaidoler blockade runners would always role; the blockade runners would always role; the highis to run is and ont, and certs a stage of the moon, between the list and first quarte of the moon, when it set early and russ latiffus moon arrangement was always a matter ognest concern to them. Then a tolerably high the also entered into the calculation.

The first blo kade runner captured by the concenticut was the Juno It was a lingle pleasalt morning of shore and out about sevents miles from Wilmirgton, when at dark she was discovered. Chase was mused after given, and in three hours she was a prize

hreak she was discovered Chase was mundately given, and in three heurs she was a vetribute in the charms she was a vetribute in the capitaln was brought on boar, he was greated with the usual "groot marning," will the additional remark "Go do see pan," to which he replied "By —, six I I'm net glato see you." A week before the June Ladastell rul pr., had discharged her Euglish carp, take on board the usual confederate American carps of rotton, to hacco and turpendine, and was now being the Nasanu.

the thip is head were turned in the direction reported all steam was raised, and the chase commerced.

At chase of this kind once lasted fifteen hours. Black smode was theorem did sincise, and prinsuit was commercia may continued the thirty and prinsuit was commercia may continued that, when the blockade-runner was lost sight of. The connecticut, however, got within two miles of her, making a gain of ten miles, in it was catinated that she was twelve miles distrit, when fire discovered to enable her to except the she do to throw overboard nearly all hel carpo, which comprised linglish goods, as the was bound in. We passed through, and by, 'munuscalle takes and boxes during the day,' some of which we perceived contained since. This caused a waggesh sailor to remark. "Perhaps if we could gut and put on some of those sloes, we could run faster and ento that fellow."

Ve will continue with the further movements of this steamer, which will be found quite injustereding but seen and be further movements of the steamer which we have been stated, also three verthoard nearly all her carpo, went into Rissan, filled up hurredly with mediate cargo, and staked once more for Wilmington; ran the blockade, and got in. In order to have less dark of the moon, site thoaded with great dispatch, leaded with the usual Confedents cargo, and sailed for Nassau. When the got a flow miles out side she was discovered by the U. S. steamer Perot, whice gave chase. It soon became very dark, and the Pequot lost sight of her, but continued on the same course sewhen the blockade turner was last seen. In a few miles of the product of the soft coal carme into the forter of the soft coal carme into the forter.

A TREMENDOUS VOLUME OF BLACK SHOKE Prom the soft coal came into the faces of the people on board of the Pequot; and in a miss

From the soft coal came into the fames of the people on board of the People; and in a minute alterwards she was up with the blockne-cunner and the Trisburn-Shandy was captaged. But had broken down. The captain of her had slated that the Connecticut had chased him as hard those fifteen hours that his machinery was very much out of order, and he headn't true to adjust and repair it, for he had to heary very much out of order, and he headn't true to adjust and repair it, for he had to heary very much to get out of Nassan, and into and out of Wilmington, in order to says the moon and the tides. So the Connecticut was the remote came of i e capture of he Triskan Shandy with he valuable cargo. Vessel and cargo together were adjusted by the prize cour to be worth \$155.

The Aided to his was the cargo thrown over bound with the heart of the substantiant and hocknet-run-dryslate. There was no time to indulge in a great out loss to the Connecticut, wasting a great out loss to the Connecticut, wasting a great out loss to the Connecticut, was an exciting one for the blockneters and blocknete-run-dryslate. There was no time to indulge in Sarveday night songs and revelvies, or to jurink "Sweet learns and wires."

We knew that blockade-runners were expected, for the rides and the state of the morn favoral them. The moon went down early for heart had been given that at that line every versels four in the most were supported them the moon went own early for heart had been given that it that line every versels four in the most in their nesigned positions. There was something moving down upon his breast on the hur licane deck, sweeping the horizon with his glass. Suddenly he rejorted that there was something moving on the water like a blocknederiuner. The commander ook a fool and confirmed the preport. Orders were in against by the offernment. The commander ook a fool and confirmed the preport.
